### GREAT American and Foreign Office

—FOR—

Securing Patents to Inventors.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY, No. 76 State Street, Opposite Kilby st., BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, late Agent of the U. S. Patent Office under the Act of 1837, determined to ... his ... in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid before by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after its rejection. This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.— The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents. ... Specifications, Assignments, and all Papers and Drawings necessary for the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. ... All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors. Copies of the claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability. R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq. of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

[From the present Commissioner.] "August 12, 1854—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

PROFESSOR WOOD'S HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all scrofula, and other cutaneous eruptions, such as scald head, &c. It will cure, as if by magic, nervous or periodical headache; make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling, to extreme old age. The following is from a distinguished member of the medical profession:

... Professor O. J. Wood—Dear Sir: ... Yours, truly, ... W. BOND, Firm of ... & Kelley, Druggists, St. Paul.

[From the Editor of the Real Estate Advertiser.] BOSTON, ... School street, March ..., 1855. Dear Sir: Having become prematurely quite gray, I was induced, some six weeks since, to make a trial of your Restorative. I have used less than two bottles, but the gray hairs have all disappeared, and although my hair has not fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry, and it has ceased to come out as formerly. Respectfully, yours, &c. D. C. M. ... Professor Wood.

Carlyle, Illinois, June 19, 1855. I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and, I have no doubt, permanently so. The Bangor Democrat and other Buchanan papers are ... the infamous slander that Col. Fremont is a slave holder.

IT IS AN ATROCIOUS AND BASE FALSEHOOD without the shadow of foundation.

## The Liquor Law and our September Election.

In the Advertiser of April 28, 1856 we gave our views very fully and explicitly on the subject of the liquor law question in this State, and concerning the course to be pursued by the friends of prohibition with reference to the law passed by the Legislature. In that article we said:

"This new law—the license system—is just going into operation. ANY ... MOVEMENT FOR ITS ... REPEAL WITHOUT SUBMITTING THE QUESTION TO THE PEOPLE, WOULD HAVE TO ... LABOR UNDER ... SKETCH BY LIGHTNING.—We are informed by ... Stanley of Augusta, that a man (name not reported) belonging in Rome, Kennebec county, was killed by lightning in Augusta, on Saturday afternoon. He was crossing the high railroad bridge over the Kennebec river. The lightning struck the track below the depot, some fifty rods from the bridge, and was seen to follow the rail through the station house and on to the bridge, where ... struck the unfortunate man, killing him instantly.

The Daily Minnesotian is informed by an enthusiastic Fremonter from Arkansas, that there are plenty of the same kidney in that state, who will give their candidate a considerable vote. The Minnesotian ... that there will be a Fremont ticket in all the South Western States.

## FIRST GUN from the NORTH WEST

### Glorious Republican Victory in Iowa!

The Election returns received on Saturday evening, indicate that the Republicans have made a clean sweep in Iowa, of Governor, Legislature and both members of Congress, by a majority of 5000. This is glorious news, showing the truth of the statement that the Great West is all alive for Fremont.

Iowa has been one of the hardest States for the Republicans in the whole West. It went for Pierce in 1852, and was carried for the Republicans in 1854 by only 1153 majority, and one of the Congressmen was against us. Now we have both and a majority for Governor of more than quadruple what it was before. Five thousand, or even four thousand majority in Iowa, would be proportionably as large as 40,000 majority in Maine.— The whole vote of Iowa, in 1854, for Governor was, for Grimes, 11,594. SENATOR SUMNER.—At the commencement at Yale College on Thursday the degree of LL. D. was conferred upon the Hon. Charles Sumner. The New Haven correspondent of the New York Evening Post makes the following reference to this compliment:

## Twenty Reasons for Leaving the Democratic Party.

BY AN OLD DEMOCRAT.

First. Because it has approved for the past four years the appointment of an avowed disunionist as Secretary of War.

Second. Because it is supported by the only political part and political organizations that have ever threatened to secede from the Union.

Third. Because its leaders deny the right of the majority to rule, and encourage the spirit of anarchy by publicly asserting that if their opponents should succeed the South would dissolve the Union.

Fourth. Because it sustains the right of a bogus Territorial ... elected by invaders from Missouri to make laws for Kansas.

Fifth. Because it has stirred up sectional strife by wantonly violating a compromise of thirty years standing.

Sixth. Because the admission of Missouri as a State was part of the same legislation which forever prohibited Slavery in Kansas, and the repeal of a portion of that legislation ... the right to repeal the whole.

Seventh. Because it refuses to admit Kansas with a Constitution which is approved by a large majority of her actual citizens.

Eighth. Because the whole course of the party for the last four years and of the policy to which it is committed by its Cincinnati platform, tends ... sectionalize the country, or to dissolve the Union.

Ninth. Because it repudiates the doctrines of Jefferson and Jackson and Wright, and lends its aid to the advocates of Slavery extension.

Tenth. Because it ... to its ... outrages on freedom of speech ... in Kansas and in Washington.

### Singer's Sewing Machines.

ALL PERSONS who desire to obtain full and reliable information respecting SINGER'S SEWING MACHINES—their price, capabilities, advantages, sizes, improvements, method of working, means of procuring them, and all other particulars—can do so by applying at our office,

No. 323 Broadway, New York,

by letter or in person, for

I. M. SINGER & CO'S GAZETTE.

This paper is devoted entirely to the Sewing Machine interest. Copies will be supplied gratis to all interested.

N. B.—The unparalleled success of our Sewing Machines has induced several fraudulent imitations of them, besides numerous infringements of our patents—of which we own sixteen. Suits for the infringement of our patents have recently been decided in our favor in the U. S. Circuit Courts in New York and New Jersey. In these suits the great principle of Holding down the Fabric to be Sewed to the Ratchet of the Machine by a yielding pressure, which is used in all Sewing Machines, has been fully established. The Wheeler & Wilson, and the Grover & Baker Sewing Machines, as we allege, each infringe three distinct patents owned by us. We have suits against them in several of the U. S. Courts, which will soon be tried. We hereby caution the public not to buy any infringing Machines, as they can be compelled by law to stop using them, and to pay costs and damages.

Local Agents wanted to make sales of our improved sewing machines. To persons properly qualified for the business, a rare opportunity for profitable and pleasant employment is offered. New and improved machines exchanged on liberal terms for old machines of every kind.
